LEWIS COUNTY GRAND JURY ON THE JOB

Besides returning indictments against all the county magistrates and J. M. Henry of the State Road Department the Lewis County Grand Jury made the following recommendations: We have examined the public buildings and have found them well kept except the County Jail which is in an unsanitary condition and we recommend that the prisoners be sent to the Mason County Jail or some other sanitary jail to be kept during the summer months. We recommend the tearing down of

the old jail building and the erection of new two story jail built on a modern plan that will be well ventilated and admit plenty of sunlight, as we think that the present jail is a monument of ignorance and barbarism.

PIANO TUNING

Mr. E. C. Shearer, Piano Tuner, Cincinnati, will be here on his semi-annual trip for one week only, beginning Monday, May 29th. Orders may be left with Miss Lida Berry or Central Hotel.

DOUBLE HEADER

Won By Maysville Breaking Long Losing Streak—McGraynor Strikes Out Eight in Second Game.

Huntington, W. Va., May 25.—The local pitchers were unable to curb Maysville here today and the visiting Burleys took a double-header, 5 to 4 and 9 to 3. Four Huntington twirlers were used, during the two games. Score:

NOTES

Maysville begins a four-game series with Lexington today and hopes to retaliate for the defeats administered here.

Pitcher Alta M. Skinner, who was left at home by Manager Jones when the team left for Huntington, will join the team at Lexington today.

"Muck" McGraynor is evidently getting back into condition as he struck out eight of the Prodigals. Although he was touched up for ten hits he kept them well scattered.

The Lexington ball team passed through here this morning en route home from Portsmouth.

PARALYSIS FATAL TO COLONEL HARRISON

Colonel A. M. Harrison, registrar of vital statistics and secretary of the Fayette Democratic Campaign Committee, died at his home in Lexington Wednesday morning as the result of a stroke of paralysis sustained Sunday shortly before noon. He was an active member of the John C. Breckenridge Camp of Confederate Veterans. Colonel Harrison was well known by a number of the old families of Maysville and Mason county. His wife was one of the speakers at the meeting of the Federation of Women's Clubs here last week.

\$50,000 FIRE AT PRESTONBURG

Prestonburg, Ky., May 25.—Fire which broke out in the business section of Prestonburg, destroyed property valued at \$50,000.

Seven buildings were destroyed, including the Clark Hotel, the Sheriff's residence, Check Howard's pool-room and barbershop, the Gibson Coal Company's offices and the Bank of Josephine.

The loss is partly covered by insurance.

The Bank of Josephine is the property of Mr. Walter Harkins, father of Mrs. G. L. Howard, of this city.

MASON COUNTY COURT

The inventory and appraisalment of the property of W. H. Harrison, deceased was produced in court, filed and ordered to be recorded.

On motion of Mrs. Mary McGadden, mother of Mary G. Newdigate and Pearce Newdigate, it was ordered that T. S. Collins be appointed guardian of said wards and he qualified as such with J. M. Collins as surety on bond.

DELEGATES TO NATIONAL CONVENTION

Colonel Clarence L. Wood, cashier of the Farmers & Traders Bank, this city, and Hon. Charles W. Grubbs of Mt. Sterling were elected delegates from the Ninth District to the Democratic National Convention in St. Louis, Mo., at the Democratic State Convention at Lexington Wednesday.

On the first ballot Mr. Wood received the votes of sixteen out of the nineteen counties in the district and on the second vote the opposition from the three other counties was removed and he was elected by the unanimous vote of the entire nineteen counties.

Mr. Wood is a life-long Democrat and an indefatigable worker for the cause of Democracy. His election as a delegate shows his popularity throughout the district and is very pleasing to local Democrats.

Mr. John W. Hopkins, superintendent of the local Western and Southern Life Insurance office, left Thursday for Ironton, Ohio, to attend the graduating exercises of the High School at that place, his daughter being one of the graduates this year.

NIGHT SESSION

Of High School Thursday Was Enjoyed By Friends and Patrons.

The first night session of the Maysville High School was held on Thursday evening, a goodly number of the friends and patrons of the school being present. The object of the night session was that the parents and friends might see just what the children are doing in the school work.

The session began in the auditorium of the High School at 7:15 o'clock when short talks were made by Mr. R. A. Cochran of the Board of Education, Superintendent W. J. Caplinger, Dr. G. C. Mance and Prof. C. S. Dale.

At 7:35 o'clock the pupils filed to their respective recitation rooms, the teachers conducting classes as follows: Mr. Mance, physics; Mr. Dale, business arithmetic; Mr. Hoeflich, Freshman algebra; Miss Sutherland, civics; Mr. Jones, bookkeeping; Miss Shaw, Senior English; Miss Haberman, Junior Latin; Miss Dickinson, cooking.

At 8:15 o'clock the bell rang for class changes, the teachers then having the following classes: Mr. Mance, chemistry; Mr. Dale, biology; Mr. Hoeflich, Junior geometry; Miss Sutherland, Sophomore history; Mr. Jones, spelling and penmanship; Miss Shaw, Senior English; Miss Haberman, Junior German; Miss Dickinson, Freshman English; Miss Dickinson, sewing.

The school was dismissed at 9 o'clock. The work and recitations by the pupils were very interesting and gave people an insight into how Maysville's school system is operated.

MUST BE GOOD

Or Risk Expulsion—Methodists Refuse To Liberalize Discipline Rules of the Churches.

Saratoga Springs, N. Y., May 25.—The Methodist General Conference refused today, by a vote of 435 to 360, to remove from the discipline of the church the clause which provides the penalty of expulsion for church members who play cards, dance and attend the theater.

More stringent regulations regarding the remarriages by Methodist ministers of divorced persons are provided in a report submitted today by the Committee on the State of the Church. The church has never recognized any cause for divorce except adultery, and has always forbidden remarriage in any case where a divorced wife or husband is living. By the proposed change a minister who performs such a marriage is guilty of maladministration and is to be held answerable to his conference.

The total abstinence by Methodist church members from the use of tobacco is urged in another report which states: "We record our solemn judgment that the habitual use of tobacco is a practice out of harmony with the best Christian life."

Mr. S. P. Browning left Thursday afternoon for Washington City.

PERSISTING IN SOCIALISM

The two houses of Congress being in disagreement over some of the provisions of the army bill, President Wilson takes occasion to make it known that he insists upon the retention of the Senate's provision to spend fifteen millions of government money for the establishment of a plant to extract nitrates from the atmosphere.

Private concerns, of undoubted financial strength and industrial integrity, have offered to spend millions of their own money to establish such a plant and to sell to the government, at an agreed price, all the nitrates needed for the manufacture of explosives.

A similar offer was made by the manufacturers armor plate, but the Democrats persisted in spending eleven millions of government money to set up their own armor plant.

Private enterprise has repeatedly made it known that plenty of ships flying the American flag can be put upon the ocean without the spending of a single dollar from the national treasury if only Congress will relieve ship-owners from some of the oppressive burdens which existing and ill-considered laws lay upon them. Yet Mr. Wilson and Mr. McAdoo insist that the government must put up fifty millions of public money to provide ships to take our products to foreign markets.

This insistence upon socialistic legislation is one of the leading tendencies of the Democratic party today. If carried to its logical extension, the policy which we have here outlined, means that there will soon be no field of individual enterprise wherein an American citizen can embark without the haunting fear that he may any day be brought into direct and destructive competition with the government. Where public money will be available to atone for all the defects and errors which experience has shown to be inherent in government ownership and where private capital cannot compete.

In all this there is a trumpet call to the American business man to arouse himself and to exert himself, to enter actively into politics in order that a sharp and peremptory check may be given to the socialistic tendencies which the Democratic party is endeavoring to give to legislation and administration. The instrument for such activity is ready. It is the Republican party. Business men should be found in Republican ranks if they wish to preserve the spirit of individual initiative and enterprise which has made America the great commercial and industrial force that she is.

W. H. M.'S LETTER

Bradford, Pa., May 23, 1916.
Editor Daily Ledger:

In our last letter to the Ledger we referred to a certain element that would not vote for either of the old parties this year at the Presidential election. We also promised to tell the readers of the Ledger, what might be expected of this dissatisfied element. We have spent about eight days in Pennsylvania, and some of the larger towns of Western New York, and there is one fact that we know beyond the question of a doubt that the political leaders of the East so far as the Republicans are concerned do not want either Hughes or Roosevelt as their candidate, but rather than face defeat will take either of them. The Buffalo Express conducted a preferential ballot of a majority of the counties of New York, by congressional districts and Mr. Roosevelt proved to be a much weaker candidate than Justice Hughes.

The Express also opened its columns to the voters to express their views regarding Mr. Roosevelt's candidacy. We have never seen a more bitter denouncement of any candidate for President than those short letters contained against Mr. Roosevelt, and strange to say these denouncements were not as a rule from the Hypocritical American. He was called the Judas Iscariot of the 20th century, the wrecker of the Republican party, the tool of George Perkins and other corporate manipulators, and one writer said: "Roosevelt is often referred to as T. R. we would suggest that five more letters be added to T. R. that will spell in full his true name TRAITOR."

However after all this bitter expression of public opinion, Roosevelt at Chicago surrounded by his Bull Moose followers will be a quantity to reckon with. Henry Ford is talked of as leading a peace party, but this talk is not very likely to materialize, and in case Mr. Roosevelt or Mr. Root should be nominated, leaves this dissatisfied element to be placed in some position either active or inactive.

Many of these dissatisfied voters will line up with the Socialist party, not that they have ever given socialism a real analytical thought, for socialism is really a scientific study, but for the simple reason that these voters are a factor in the make-up of the political world and want to be counted. What is socialism and what does it stand for? To answer these questions and to justice to the Socialist, would require much time, and also require a much abler writer than my humble self. However we will say that many people of considerable ability have a very erroneous conception of the

true principles and doctrines of Socialism. Very many believe that Socialism is anarchy. This is a great mistake, anarchy does not believe in statute laws, Socialism believes in law. Anarchy believes in the bullet. Anarchy believes in society ruling itself independent of law. Socialism believes society should be ruled only by just and equitable laws. Socialism believes that commercial wars is a crime against humanity. Socialism believes that if the brotherhood of man was recognized the world over, the Nations of all the earth would disarm, and the people would learn war no more, to this end they are lending all their energies. This very briefly is their moral creed but how to bring about these happy conditions involves the question of political and economic management of governments. Some believe that Socialism favors an equal division of all the wealth of the country, and the writer once asked a very intelligent Socialist if this was not what the Socialist wanted. No, my brother, you have gotten hold of the wrong idea of Socialism he said. We Socialists don't believe in dividing at all, don't you believe that you are entitled to all the wealth that you create by the labor of your hands? Yes, we replied. Well, he said as he proceeded to take a little pamphlet from his pocket. Do you know how much wealth was created by the hand of labor in 1909, and what each laborer would have had if he had gotten the wealth he created. We confessed we did not know. Well he continued referring to the government statistics in his little book, labor created in 1909 if equally divided, \$2,560, and the workers who created this wealth received for his share about \$500. No indeed we Socialists do not believe in dividing, we want to stop dividing. The invention of machinery, the development of manufactures, and the rapid growth of cities all tend to concentrate men in larger masses for industrial activities, and at the same time to displace hand labor. As the capacity of the factories increased, the shoe maker, the tailor, and all other mechanics of hand labor found himself out of employment, and this brought about conditions called the labor problem, for with the growth of the factory, the invention of machinery, and the combination capital, has made the worker more and more dependent upon his employer, until today it is often said the man that owns your job owns you.

The man today who works in the factory only learns to do one kind of work, in making machinery he learns to make only one part, he is never a finished mechanic, so when he cannot find labor for the particular work he can do he is out of employment. Again when factories, mills and mines produce more than they can find a market for, then there is distress among the workers, men are laid off, the price of labor goes down, while rents and necessities of life remain the same or go up.

The Socialist view of these conditions which we all know often happen from this standpoint. The worker has produced all this wealth, for which there is at present no market, and yet amid all this abundance that his own hand has created, he often walks the street ragged, homeless, and hungry. These conditions often bring on strikes and riots, the loss of life and the destruction of property. This in the opinion of many able men is the chief reason why the capitalist are clamoring so loudly for preparedness, and for building up the State militia, and for military training in our public schools. The bill for military training in the public schools in New York was signed by the Governor a few days ago and now has become a law.

Pennsylvania has an army known as the State Police or State Constabulary. This army now is probably 10,000 or 12,000 strong, I am told they are paid \$75 per month, whether this salary is price for each month, or only for the time they are on duty we do not know, they consist of both infantry and cavalry, and their maintenance is paid by the taxpayers of the state. We have seen them in many places of this state, and notice they eat at the best hotels.

During a prolonged strike in one of the large cities of this state a prominent manufacturer said to the writer, "This is the way to deal with strikers, if one of them is killed it is the last of the matter." Could militarism be more absolute? However this army is not deemed sufficient to protect the interest of the manufacturers of the state, and a strenuous effort is being made to bring recruits to the State Constabulary, but such men as can pass the examination into this army of State Police are turning their attention to pastures more green.

The munition makers feel they are sadly in need of expert gunmen, and are paying \$150 per month for mounted Cossacks to guard their plants while they continue to pile up dollars making the implements of death to destroy their fellowman. The rapid concentration of wealth into hands of the few is viewed by the Socialist, as well as many others with much alarm. With all our boasted wealth, and loud vaunted christianity statistics, under our present economic system show we are not doing much for the moral, physical or financial welfare of the people. Statistics show that we have in our penitentiaries 102,329 prisoners and in our juvenile institutions 23,786 children. There is a total of 199,981 paupers in the United States. Three million pauperized citizens ask assistance from charitable institutions each year. There are 500,000 prostitutes in the United States of which 100,000 die each year. Only \$3 per year for each child is spent to educate it, while \$17 is spent to keep its father drunk.

Six per cent of the population of the United States own 82 per cent of the wealth, 19 per cent the middle class own 15 per cent, and 75 per cent of the working class own 3 per cent. There are 8,246,857 persons above the age of ten years in the United States that can neither read or write. Out of 22,000,000 school children 6,000,000 never enter a school. The railroads of the United States own 60,000,000 acres of the people's lands and are still accumulating more. Ten years ago 75 per cent of the farming was done under the tenant system. Do we need any change in the management of our government? Can these conditions exist indefinitely? Will not the time come and come soon too, when we as a nation must enter the first stage of our decadence? This has been the history of all other nations who have traveled the road that we are so rapidly traveling over. Can we hope to escape their fate? The Socialist party claim, that socialism will when in force dispel these conditions, that armies and navies will not be needed to protect our foreign trade, for with universal socialism the commerce of the sea will be open to all nations, which can never be either under a high or low tariff and by the way this is practically Mr. Taft's view of the matter for when he was President he said that reciprocity world wide would be a great blessing to the world. Then why not have it.

We are told the Socialist can never accomplish anything, they are too few in numbers. All parties were at first, but socialism even in this country when its membership is smaller than in European countries, is no longer an insignificant party. At the last Presidential Election Eugene V. Debs polled a million votes. Chicago elected a socialist congressman. Milwaukee when the Socialist were defeated four years ago by a fusion of the two old parties at their last city election swept Milwaukee clean, electing their entire ticket. Schenectady, New York, has a Socialist Mayor. The City of New York has several socialist councilmen. Bakersfield, Cal., Butte Mont. and other cities in the United States are under Socialist government. Italy

before the war had over 135 cities controlled by the Socialist. The German Reichstag has ninety-two Socialist members, and under Socialist management the German government developed the greatest efficiency that any nation had ever yet attained. Germany spent more money on her schools than she spent on her navy. Germany has the least illiteracy of any nation of the world. Less than one per cent of illiteracy in Germany. England fears her power will be broken by the Socialist party of England. Connolly and James Larkin, the leaders of the Irish rebellion were Socialists. McDermot was strongly leaning to Socialism, and who was said the most eloquent orator in Ireland. Who are the leading Socialist in the United States, and are they men of any ability? If a party in not represented by intelligent leaders it is sure to go to pieces in the combat of discussion. The following is a partial list of some of the Socialist big guns. Allen Lewis Benson is an able speaker, one of the most beautiful and forceful writers in our country. Allen Lewis Benson is the Socialist candidate for President. If a man's writings is any indication of his character, Benson must be a man with a beautiful soul. Fitzpatrick is Benson's running mate and an orator without a peer. The man who meets him in debate will think he has run against a buzz saw. Morris Hillquit a very able writer and speaker. Charles Edward Russell, journalist and literary man, world-wide known as a master of the pen. Dr. Lum, D. D., Alexander Irvin, D. D., J. Stitt Wilson, D. D., and Job Hassiman, Attorney at law, and many others. Eugene V. Debs is a candidate for Congress in the Fifth Congressional district of Indiana of which Terre Haute is largely a part. The Hoosier orator had better not challenge Debs to debate expecting a soft snap. The only reforms either of the old parties have made have been reforms long advocated by the Socialist. Municipal ownership of public utilities. The election of United States Senators by the popular vote of the people. The Initiative, Referendum and Recall, the elimination of Child Labor from our factories, Woman Suffrage, are all reforms that the Socialist party has agitated for years. None of these reforms originated in either of the old parties. They long favored the Parcel Post, and their platform can be summed up in few words, this is it: Anything for your personal use shall be owned privately. Your home, whether it be the farm or the house in the city. Anything used collectively shall be owned collectively, such as coal mines, oil fields, railroads, telephones and telegraph lines, water power sites and all natural resources of the people that is collectively used.

Socialism is not a welcome visitor among the great industrial centers of our country, they teach the pernicious doctrine that a man is entitled to the wealth he creates and for this reason he is no more welcome than the labor union. Capital believes it has a perfect right to organize, even to forcing the small dealer or manufacturer out of business, these results come under our personal notice almost every day, but capital denies labor the right to organize, or set the price of his labor. With Socialism fully in power the labor union would disappear, there would be no army of 10,000 or 12,000 state troops to support and pay for the sole purpose of entrenching capital in power. The government would own or control all these things and strikes would disappear like a mist before the morning sun. But, some tell us the church does not approve Socialism. This is partly true, in large cities the wealthy churches do oppose Socialism, but the reason is obvious, the capitalist church member is often a keen shrewd politician as well as a devout christian, and he sees in Socialism, the friend of labor that would and will some day liberate the toiling masses from the hand of their exploiting masters. These churches tell us that Socialist are atheist and infidels, that they are free lovers and destroyers of homes; but Socialism is a political party, the same as the Democrat or the Republican party, just like these parties it has no religious creed. Jefferson was said to be an infidel. Mr. Lincoln never held membership in any church. Robert Ingersoll was an infidel. Mr. Taft is a unitarian, which church people often declare is infidelity gone to seed. We never heard any one object to their political faith because of their skepticism. As free lovers and destroyers of the home, our divorce courts should be an accusing witness against any one who throws this dirty mud at the Socialist. We do not believe that Socialism will ever come as many Socialist believe it will come, it may possibly never come thru the Socialist party direct, but it will come some day, and this has been predicted by some of the ablest Senators in the United States Senate. Judge Gary of the United States Steel Corporation less than two years ago in a speech to the members of that colossal Corporation, said: "If we are not more just to labor in the future than we have been in the past some time and not far distant our business will be taken out of our hands."

Socialism this year will add many

WHEN THE KIDNEYS FAIL

Maysville People Have Found That Ill Health Follows

Do you ever feel that you simply can't go any further—that you must have rest from that lame and aching back—relief from the constant, dead tired feeling—freedom from those stabbing, darting pains? Likely your kidneys are worn and tired and need help. The kidneys work night and day, removing uric acid from the blood and other waste created by expenditure of strength and energy. Naturally a life of unusual activity doubles the duties of the kidneys and in time the strain generally tells. Doan's Kidney Pills have brought new strength to thousands of bad backs and quick relief to weakened kidneys, so users say. Let them do the same for you.

S. O. Duncan, blacksmith, Flemingsburg, Ky., says: "I had severe backaches and my kidneys were out of order, their action being irregular. Hearing about Doan's Kidney Pills, I gave them a trial and was soon convinced of their merit. They strengthened my kidneys and back."

new members to its ranks, they expect to elect a number of able Socialists to Congress. And every speech such as Senator Chamberlain made a few days ago, saying conscription was the only method to insure preparedness, is surely driving the people to Socialism, they will not stand for Conscription in times of peace. If the prosperity of a nation depends upon armed force such as is used in this state, then prosperity is a dear thing to all except the capitalist. The great masses of the people fear preparedness for in it they see the iron clutch of militarism, and rather than submit to this they will turn to Socialism. There is a crisis rapidly approaching, how will the people meet it, will it be met with wisdom, or will it be met with a folly that later will bring bitter repentance. W. H. M.

May Ban Dye Exports — Proposed Shipments From Germany Not To Interest of England, Lord Robert Cecil Asserts.

London, May 24—Lord Robert Cecil, Minister of War Trade, declared in the House of Commons today that a proposal was received to permit the exportation from Germany to the American Government of dyestuffs, but that no answer had yet been given.

The War Trade Minister denied reports that licenses had been granted for the export from Germany to the United States of \$5,000,000 worth of dyes, part of the shipment, which might reach \$30,000,000.

Lord Robert Cecil agreed with Sir John Lonsdale, Conservative, the questioner, that the object of Germany's desire to export dyestuffs was to keep up German exchange with America. He added:

"Unquestionably it is not to our interest to allow that to take place, and I will bear that consideration very fully in mind when the reply is sent to the American Government. It would not be courteous to the United States to give assurance to this House before the reply to them is actually sent, but I assure Sir John Lonsdale what he says and what is the general feeling of the House will be borne in mind in any reply we send."

Lord Robert said that in 1915 the British Government was willing to allow the exportation from Germany to the United States of two cargoes of dyestuffs, but that this offer had lapsed.

Fair Prospect of Success

Washington, May 24—Negotiations with Great Britain are proceeding, State Department officials stated tonight, with fair prospect of success in obtaining permit to import at least a limited quantity of German dyes to American manufacturers.

Few women need worry about the hereafter—therefore, they all do.

NEW HEAD OF ALMA COLLEGE STARTS CAMPAIGN FOR ENDOWMENT FUND OF \$1,000,000.

Alma, Mich., May 24—Alma College, the youngest sectarian institution of education in Michigan, has launched a campaign for an endowment of \$1,000,000. The Presbyterian school now has an endowment of \$400,000 and the workers under President Harry Means Crooks, the new head of the college, plan an extensive growth for the institution, which is the only college in central or northern Michigan outside the State School of Mines.

Just what the amount the trustees have themselves pledged toward the fund has not been announced, but it is understood that it exceeded the sum expected from these men, who, with President Crooks, are directing the destiny of the school.

HE'S AGIN 'EM

Lexington, Ky., May 24—Former Governor James B. McCreary, who will be one of the delegates from Kentucky to the Democratic National Convention at St. Louis, when asked today where he stood on the questions of prohibition and woman suffrage, expressed surprise that he should have been so interrogated. "I am decidedly against prohibition and woman suffrage and thought every one knew it," he said.

GOOD WORK FOR SICK WOMEN

The Woman's Medicine Has Proved Its Worth.

When Lydia E. Pinkham's remedies were first introduced, their curative powers were doubted and had to be proved. But the proof came, and gradually the use of them spread over the whole country. Now that hundreds of thousands of women have experienced the most beneficial effects from the use of these medicines, their value has become generally recognized, and Lydia E. Pinkham's Vegetable Compound is the standard medicine for women.

The following letter is one of the thousands on file in the Pinkham office, at Lynn, Mass., proving that Lydia E. Pinkham's Vegetable Compound is an article of great merit as shown by the results it produces.

Anamosa, Iowa.—"When I began taking Lydia E. Pinkham's Vegetable Compound I suffered with a displacement, and my system was in a general run-down condition. I would have the headache for a week and my back would ache so bad when I would bend down I could hardly straighten up. My sister was sick in bed for two months and doctored, but did not get any relief. She saw an advertisement of your medicine and tried it and got better. She told me what it had done for her, and when I had taken only two bottles of Lydia E. Pinkham's Vegetable Compound my head began to feel better. I continued its use and now I don't have any of those troubles."—Mrs. L. J. HANNAN, R.F.D. 1, Anamosa, Iowa.

EVELYN WEBS AGAIN

New York, May 24—Evelyn Nesbit Thaw and John Clifford, her dancing partner for three years, went from New York to Baltimore today and were married. They returned to New York this evening.

This latest chapter in the life of Evelyn Thaw was not unexpected. Mrs. Thaw had been closely and constantly associated with Clifford. She has spent the summers with him at his camp in the Adirondacks and has been seen very little in the Broadway reports where once she was well known.

The Clifford's have recently completed a tour in vaudeville and are believed to have made the first act of their vacation their marriage.

WHAT NEXT?

New York, May 24—According to a story printed here today a German supersubmarine is due at New York soon, inaugurating a passenger, mail and freight service between Germany and the United States. The cargoes will consist of chemicals and dyestuffs, it was said.

BALLOT

Cast By Senator Shields Decides Brandeis Case in Senate Judiciary Committee—Recommendation For Confirmation Is Reached By a Strict Party Vote.

Washington, May 24—The Senate Committee today recommended confirmation of the nomination of Louis D. Brandeis to the Supreme Court by a strict party vote, all the Democrats voting for confirmation and all the Republicans against it.

Supporters of the nominee plan to ask for action on the recommendation by the Senate tomorrow at an executive session, while the opposing Senators are planning to force, if possible, open sessions for the consideration of the nomination. Prolonged debate may result, but Mr. Brandeis' friends claim he will be confirmed before the recesses for the national conventions begin on June 3.

After weeks spent in taking testimony through a subcommittee and discussing the subcommittee's report, action came today without debate in a seven-minute session. There was nothing said beyond calling the roll. Doubt as to the outcome existed until the name of Senator Shields was reached. His vote in favor of Mr. Brandeis was the deciding factor, the committee standing 10 to 8 for a favorable report.

Just before going to the committee meeting Senator Shields conferred with Senator Smith, of Georgia, who had made an investigation outside the record during the absence of Senator Shields, who returned today from Tennessee. The Georgia Senator had interviews with members of the Interstate Commerce Commission and several Boston lawyers in regard to the charges against Mr. Brandeis, and after satisfying himself that the charges were not sustained had a talk a few days ago with Mr. Brandeis himself.

Friends of the nominee plan to oppose open sessions on the ground that this is a movement for delay in confirmation, and if open sessions are to be had they should be provided for all nominations. Senator Cummins, of Iowa, was the only member of the committee not present. His vote, however, was recorded against confirmation. Senators voting for confirmation were Culberson, Overman, Chilton, O'Gorman, Fletcher, Reed, Ashurst, Shields, Walsh and Smith, of Georgia. Senators voting against confirmation were Clark of Wyoming, Nelson, Dillingham, Sutherland, Brandegee, Borah, Cummins and Works.

FOOD DICTATORSHIP

Berlin, May 24—Under the description of "important political conferences," the Emperor today received at luncheon all the Imperial and Prussian Ministers and the Presidents of the Reichstag and Prussian Chambers of the Imperial Chancellor and also had a confidential conference with the leaders of the various Reichstag parties. The ostensible purpose of these conferences was to discuss thoroughly the forthcoming measures respecting the so-called food dictatorship.

PRESIDENTIAL BOOM

OF FAIRBANKS GAIN

Chicago, May 24—Charles W. Fairbanks' presidential boom was brought to Chicago today by James P. Goodrich, national committeeman and Republican nominee for Governor of Indiana. Headquarters will be open either tomorrow or Friday and an active pre-convention campaign launched for the Indiana "favorite son" candidate. Mr. Goodrich will be aided in the management of the Fairbanks campaign by Will H. Hays, chairman of the Republican state committee of Indiana; Edward C. Toner, former Progressive state chairman, and Horace C. Stillwell.

Mr. Goodrich issued a statement in which he said:

"Mr. Fairbanks' public record is sound on Americanism and preparedness and every other line issue. He stands for an adequate preparedness for national defense, the restoration of the protective tariff, the restoration of the American flag to ocean trade routes and necessary organizations to market our wares in the commercial centers of the world. His nomination for President would insure the election of two Republicans United States Senators from Indiana in November."

FORD SHOWS FIGHT

Detroit, Mich., May 24—Henry Ford today replied by letter to a telegram from Robert M. Thompson, President of the Navy League at Washington, in which Thompson notified him that the league had commenced suit for \$100,000 against Ford. The suit alleging libel is based upon charges which it is claimed that Mr. Ford, in his campaign against preparedness, made against the league.

Mr. Ford in his reply agreed to have his appearance as defendant in the case entered provided the Navy League will bring all of its records into Court and immediately place on the witness stand "for examination its officers and such of its contributing members as we may designate."

Alfred Lucking, attorney for the automobile builder, will go to Washington at once to join issue in case Ford's proposals are accepted, the latter's letter to Thompson declares.

Children Need a Warm Table Drink

Many parents understand that tea and coffee hinder mental development and body growth in their children, but are puzzled how to gratify the little folk's desire for a warm drink, without harming them.

For years now, in a considerable number of American homes, the problem has been solved by

Instant Postum

This pure food-drink is made of prime wheat, roasted with a bit of pure, wholesome molasses. It closely resembles the higher grades of mild Java coffee in color and flavor, has a delightful aroma, and is so pleasing that the older folks join the children in this wholesome beverage.

Where the rest of the family stick to coffee, Instant Postum for the children causes no extra work. A level teaspoonful in a cup with hot water and cream and sugar to taste, makes a delightful drink instantly.

PROHIBITION NATIONAL DELEGATES ARE NAMED

Louisville, Ky., May 25—Kentucky prohibitionists in State Convention here today nominated candidates for Congress in each district except the Fifth, which will be supplied by the executive committee; accepted a platform, named district delegates and alternates and these delegates-at-large to the National Convention:

Mrs. Frances E. Beauchamp, Lexington; T. D. Demaree and the Rev. L. L. Pickett, of Wilmore, and Adam Carpenter, of Carlisle.

The platform declared a disbelief that any political party which would protect or in any way perpetuate liquor traffic safely could be entrusted with the affairs of government. It reaffirms an unalterable determination to labor for the annihilation of the liquor traffic, and commends the work of Congressman Charles H. Randall, of California.

Other planks favor suffrage for women, good roads, the initiative and referendum, the "highest preparedness in citizenship, but unalterable opposition to militarism," the settlement of domestic and international troubles by arbitration, compulsory school laws and the prevention of child labor.

PROTECT THE BIRDS

The war is not all in Europe, in this fair and peaceful country of ours, a war is constantly waged with all the arms and cruel power on one side.

It is the man behind the gun going forth to bring death to the innocent feathered songsters which inhabit the trees, pouring forth their song of gladness. Sometimes it is the mother bird that is either killed or left to flutter and die, no longer able to carry food to little ones in the nest, which must starve.

It is known that these things are done. The willows along the bank seemingly offer a safe harbor for our birds. It also attracts the man and boy with the gun. When will we learn that it is cruel and cowardly to harm the helpless creatures. That birds are useful to man; farm and orchard is protected by them, from insects. It may not be known generally that it is a fine of five dollars for killing of song birds. Why can we not enforce the law.

CROPS IN KENTUCKY

The Kentucky crop summary for the week ending May 23 follows:

The week was cool and precipitation was generally deficient, although good showers during the last two days over the eastern counties greatly relieved conditions there, but more rain is needed in practically all sections. Most of the corn crop has been planted and the seed is germinating well. In the eastern counties oats and potatoes have been injured by dry weather. There is some complaint of damage to wheat by Hessian fly in the western sections. Tobacco plants are generally late, but transplanting has begun in the dark district.

ROBBERS TOOK CLOTHES OF KENTUCKY VISITOR

Cincinnati, May 25—With an awning draped about him George Hensley, of Pineville, Ky., rushed into the lobby of the Gibson House today and appealed for help. He said that he and Ernest Wix, also of Pineville, were held up by two men. Wix escaped, but the robbers took Hensley's clothes. He found a piece of awning and went up town looking for a policeman. Failing to find an officer he entered the hotel. Police later found his trousers and coat and both Kentuckians started for their homes.

MRS. COX INHERITS ENTIRE ESTATE OF LATE POLITICIAN

Cincinnati, May 25—Mrs. Caroline Cox, widow of George B. Cox, former Republican leader and capitalist, was appointed administratrix of his estate today. Attorney Ben Heidingsfeld, who filed Mrs. Cox's application for appointment, placed Cox's personal estate at \$1,000,000 and his realty at \$100,000 for purposes of administration, but it is believed that inventory will show an estate above this amount. Mrs. Cox and Attorney Heidingsfeld reported to Judge Lueders that a search of Cox's papers failed to disclose a will. Mrs. Cox inherits the entire estate under the law.

DIED AT PORTSMOUTH
Rev. Cyrus Riffle, a retired member of the Kentucky Conference of the Methodist Episcopal Conference, died at his home in Portsmouth, Ohio, Monday night at 9:20 o'clock. Rev. Riffle was pastor of the Third Street M. E. Church, this city, some twenty years ago. During his ministry he filled many positions of responsibility and trust and was a very able preacher. He was a veteran of the Civil War.

ESTATE OF HENRY GEORGE SMITH, Dec'd.

Smith, aged 37, drowned with wife. Left 3 children—all boys—and Estate of \$80,000. No other known relative. Court named a Guardian, a stranger, and Trustee of Estate, also stranger. As boys came of age their shares were paid them. No Trust Estate to protect them during their early years of business ignorance. One boy was swindled by a land scheme; dropped his all. Another boy "blew" his for fast living. The last lost on Wall Street his share. All could have been avoided by a Trust estate protecting the boys until they had learned the value of money.

May we tell you why this could not happen to ANY Estate where we are Executor? We will be glad to advise you without charge. All consultations strictly confidential.

Strawberry Short Cake Suggestion

Appetizing—Delicious
Take one of Stone's Silver Slice Cakes, split it lengthwise and fill with full-ripe, luscious berries—the result will be a revelation to you.

We have tried it and find that Silver Slice lends itself perfectly for use with any strawberry combination. The flavors blend nicely and the contrast of color is most pleasing and tempting.
